

Your Future Starts Here

Not all colleges prepare you for the real world; we do. At Auscare, we don't just issue certificates; we launch careers.

Global Competency: To provide training that aligns with international healthcare standards (Australian-standard), ensuring our graduates are competitive in both local and global job markets.

Practical Mastery: To bridge the gap between theory and practice through mandatory 120-160 hours of clinical placement in leading healthcare facilities.

Professional Integrity: To instill a culture of compassion, ethics, and "person-centered care" in every healthcare professional we train.

Career Readiness: To go beyond the classroom by providing career guidance, soft-skills training, and support in navigating international healthcare pathways.

About Auscare

Auscare International College is a TVET-accredited institution based in Jomo Kenyatta, Nyali, Mombasa. We specialize in providing world-class healthcare and community service training modelled after Kenyan and Australian industry standards. Our mission is to bridge the global healthcare gap by producing highly skilled, compassionate professionals who are ready to work in Kenya and across international borders..
